OBJECTIVE

I am a passionate and dedicated cybersecurity enthusiast with a strong commitment to safeguarding digital assets and data in today's increasingly interconnected world. My path in this dynamic profession is motivated by my continuous drive for knowledge, my strong curiosity about technology, and my significant interest in security concerns.

EDUCATION

BSc. Computer Science   **(Jan 2021 - Jun 2024)**

Afe Babalola University
Ado-Ekiti, Nigeria

HARD SKILLS

- Programming Languages: Python, HTML, CSS, PHP
- Tools/Platforms: Linux, Git/GitHub
- IDE's: VS Code, Cisco Packet Tracer, Burpsuite, Pycharm, Jupyter

WORK EXPERIENCE

Aug, 2022 -- Oct, 2022   **Clerical Assistant.**   Ecowas, Abuja

- Provided Excellent Customer service while managing printing and troubleshooting of the organization's network interface.
- Contributed to the technical operations of various international conferences.

Aug, 2023-- Oct, 202   **CISCO Intern**   HIIT Plc, Abuja

- Collaborated on configuring and troubleshooting virtual networking equipment using Cisco packet tracer and gained hands-on experience in optimizing network performance.
- Developed strong teamwork and communication skills by collaborating with my colleagues to address network challenges.

PROJECTS

Web App Vulnerability scan using Burp suite
- Implemented Burp Suite for web application security, conducting comprehensive penetration testing to identify and address vulnerabilities.

GUI Password Manager
- Developed a Python-based GUI password manager, streamlining secure credential management, and I created a user-friendly interface that makes it easy for users to safely save and recover passwords. enhanced data protection by putting encryption techniques into practice.
